

Level Expected at the End of EYFS

Understanding the World (Technology)

Children recognise that a range of technology is used in places such as homes and schools. They select and use technology for particular purposes.

Key Stage 1 National Curriculum Expectations	Key Stage 2 National Curriculum Expectations
 Pupils should be taught to: understand what algorithms are; how they are implemented as programs on digital devices; and that programs execute by following precise and unambiguous instructions; create and debug simple programs; use logical reasoning to predict the behaviour of simple programs; use technology purposefully to create, organise, store, manipulate and retrieve digital content; recognise common uses of information technology beyond school; use technology safely and respectfully, keeping personal information private; identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies. 	 Pupils should be taught to: design, write and debug programs that accomplish specific goals, including controlling or simulating physical systems; solve problems by decomposing them into smaller parts; use sequence, selection, and repetition in programs; work with variables and various forms of input and output; use logical reasoning to explain how some simple algorithms work and to detect and correct errors in algorithms and programs; understand computer networks including the internet; how they can provide multiple services, such as the world wide web, and the opportunities they offer for communication and collaboration; use search technologies effectively, appreciate how results are selected and ranked, and be discerning in evaluating digital content; select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information; use technology safely, respectfully and responsibly; recognise acceptable/unacceptable behaviour; identify a range of ways to report concerns about content and contact.

KS1	LKS2	UKS2
 Children begin to understand the particular purposes technology can be used for and that by adding text and images you can communicate with technology. Children develop their skills in typing, selecting tools and organising information. KS1 Computing National Curriculum Children use technology purposefully to create, organise, store, manipulate and retrieve digital content. Children can: add text strings, text boxes and show and hide objects and images, manipulating the features; use various tools, such as brushes, pens, eraser, stamps and shapes, and set the size, colour and shape; use applications and devices in order to communicate ideas, work, messages and demonstrate control; save, retrieve and organise work; use key vocabulary to demonstrate knowledge and understanding in this strand: paint, colour, brush, tools, settings, undo, redo, text, image, size, poster, launch, application, software, window, minimise, restore, size, move, screen, close, click, drag, log on, log off, keyboards, keys, mouse, click, button, double click, drag, present. 	 Children develop their skills of formatting using keyboard commands, organising their work to demonstrate effect. In LKS2, they will have the opportunity to express themselves more through digital technology, art, PowerPoint and posters. Children should continue to demonstrate control when operating tools as in KS1. KS2 Computing National Curriculum Children understand computer networks, including the internet; how they can provide multiple services, such as the world wide web, and the opportunities they offer for communication and collaboration. They select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information. Children can: a create different effects with different technological tools, demonstrating control; b use appropriate keyboard commands to amend text on a device; c use applications and devices in order to communicate ideas, work, and messages; d save, retrieve and evaluate work, making amendments; e insert a picture/text/graph/hyperlink from the internet or a personal file; f use key vocabulary to demonstrate knowledge and understanding in this strand: draw, object, shape, line, line, colour, fill colour, group, ungroup, font, size, text box, format, image, wrap text, plan, link, image, object, link, hyperlink, minimise, restore, size, move, screen, split, create, organise, file, folder, close, exit, search, print, password, screenshot, snipping tool, shift, undo, redo, menu, dictionary, highlight, cursor, toolbar, spellcheck. 	 Children begin to look at new software, creating 3D models and learning how to orbit, zoom and develop their editing skills further. They become more confident in inserting links, images and formatting text to create effect. KS2 Computing National Curriculum Children select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information. Children can: use the skills already developed to create content using unfamiliar technology; select, use and combine the appropriate technology tools to create effect; review and improve their own work and support others to improve their work; save, retrieve and evaluate their work, making amendments; insert a picture/text/graph/hyperlink from the internet or personal file; use key vocabulary to demonstrate knowledge and understanding in this strand: window, layout, text, font, colour, format, heading, hyperlink, 2D shape, 3D shape, orbit, pan, zoom, eraser, dimension, measurement, guide.

Children begin to develop their creativity using technology	Children develop their editing skills further by cropping,	Children begin to look more into multimedia broadcasting,	
through recording sound. Children will also begin to develop	organising and arranging film clips. They are able to share work	learning new skills including recording jingles, podcasts and	
their editing skills and control of the tools.	and offer feedback and ideas for improvement with animation	narration. They become more confident in post-production with	
KS1 Computing National Curriculum	and film, giving their opinion on which software to use. In LKS2,	editing, trimming and refining their work based on plans they

 b change sounds recorded; 	design and create a range of programs, systems and content	that accomplish given goals, including collecting, analysing,	
	that accomplish given goals, including collecting, analysing,	evaluating and presenting data and information.	
c save, retrieve and organise work;	evaluating and presenting data and information.		
d use key vocabulary to demonstrate knowledge and		Children can:	
understanding in this strand: commands, add sound.	Children can:	a collect audio from a variety of resources including own	
	a use software to record, create and edit sounds and	recordings and internet clips;	
	capture still images;	b use a digital device to record sounds and present audio;	
	b change recorded sounds, volume, duration and pauses;	c trim, arrange and edit audio levels to improve quality;	
	 use software to capture video for a purpose; 	d publish their animation and use a movie editing package	
	d crop and arrange clips to create a short film;	to edit/refine and add titles;	
	e plan an animation and move items within each animation for playback;	 use key vocabulary to demonstrate knowledge and understanding in this strand: audio, record, edit, play stop, 	
	f use key vocabulary to demonstrate knowledge and understanding in this strand: audio, sound, video, movie, embed, link, file format, animate, animation, still image, thaumatrope, zoetrope, zoopraxiscope, stereoscope, flip book, frame, onion skinning, loop, frame rate, record, stop, play, stop motion, stop frame.	digital content, downloadable, backing track, voiceover, mute, gain, production, post-production, documentary, project, evaluation, screening, ceremony, upload.	

Multimedia Sound and Motion

Big	Ational Curriculum se and combine a variety of software t services) on a range of digital devices to e a range of programs, systems and content given goals, including collecting, analysing, esenting data and information.	 Data Handling in UKS2 focuses on selecting the correct method to display data and using software such as spreadsheets. Children also learn how to check the accuracy of data and compare data for a specific purpose. KS2 Computing National Curriculum Children select, use and combine a variety of software (including internet services) on a range of digital devices to design and create a range of programs, systems and content that accomplish given goals, including collecting, analysing, evaluating and presenting data and information. Children can: a construct data on the most appropriate application; b know how to interpret data, including spotting inaccurate data and comparing data; c use keyboard shortcuts and functions to input data on spreadsheets and create formulas for spreadsheets; d add data to an existing database; e use key vocabulary to demonstrate knowledge and understanding in this strand: Google Docs, insert, table, spreadsheet, cell, row, column, formula/formulas, calculate, format, edit, insert, ascending, descending.
---	---	--

 Children begin to make links to how they use technology outside of the classroom. They begin to think about the benefits of using technology in their lives, making links to learning about online safety. KS1 Computing National Curriculum Children recognise common uses of technology beyond school. They use technology safely and respectfully, keeping personal information private; they identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies. Children can: a recognise ways that technology is used in the home and community, e.g. taking photos, blogs, shopping; b use links to websites to find information; c recognise age-appropriate websites; d use safe search filters; e use key vocabulary to demonstrate knowledge ar understanding in this strand: filter, Google, search engin image, keyboard, email, internet, subject, addres communicate, sender, safe, secure. 	du websites to a favourites list,	understanding in this strand: world wide web, search,
